**CompanyReimagined.com Provides Monthly Grants for Female & Minority Entrepreneurs**  
*Newly Launched eCommerce Site Offers Monthly & Annual Grants via Application Process, Membership Plans for Exclusive Insights on Success, Leadership, Excellence, Wealth building*

**Suffolk, Va., Feb. 12, 2019** – Tanya M. Howard is launching CompanyReimagined.com to provide American female and minority entrepreneurs grants and other resources to grow and sustain their business dreams. Monthly grant applications will be available at the site in late March 2019.

According to Founder & CEO Howard, CompanyReimagined.com <https://www.companyreimagined.com> is a one-stop, online destination for startups, entrepreneurs and small business owners. The eCommerce site saves entrepreneurs time and money by offering \$250 business grants on a monthly basis via a competitive application process, with an application fee of \$25. Selected entrepreneurs for the monthly grants will automatically be eligible for the site's annual grant of \$2,500.

In addition, CompanyReimagined.com provides access to relevant information and tools, such as articles about entering prominent pitch competitions, identifying funding sources, creating investor presentations, filing for a patent, and adhering to government regulations. With [companyreimagined.com/](https://www.companyreimagined.com/) membership plans ranging from \$39.00 per month to \$299.00 annually, members have exclusive, unlimited access to insights and tips about success, excellence, leadership, and wealth building offered in a mix of media from eCourses to videos to infographics.

“Throughout my career, I’ve mentored a great number of rising professionals and entrepreneurs and continue to do so,” said Howard. “I created CompanyReimagined.com to expand the way I can give back, establishing a national platform to provide even more people with grants, tools, information, and other resources.”

“CompanyReimagined.com is here to make it convenient, easy, and accessible to get the information and resources you need when you need them from someone who understands this thrilling ride called entrepreneurship,” said Howard, an entrepreneur who is also the creator of Mouth Meets South, a brand of soul food and Southern cuisine frozen meals.

Citing a recent report by *MarketWatch*, Howard said that women and minorities in the United States are far less likely to receive outside funding for their startups compared to men. Without a higher probability of women and people of color receiving interest from venture capitalists, banks, and other investors, they often struggle to acquire the funding necessary for their businesses to be established, to endure, and to grow.

At [companyreimagined.com/](https://www.companyreimagined.com/), we believe everyone should have a fair shot at creating the work and life of their dreams, regardless of gender, race, or ethnicity, Howard said.
