

PRESS ANNOUNCEMENT

Monday, July 22, 2019: Patricia Grunow, owner of Grunow's Kitchen, along with her husband Bill and several staff members, cut the ribbon for the grand re-opening of their restaurant, located at 4336 George Washington Memorial Highway in Grafton. The restaurant is entirely gluten and nut free with many of their fresh ingredients coming from the new adjoining garden. Their vision is to provide the community with low sodium, low sugar, non-processed, whole food meals. While specializing in serving the vegan and vegetarian community, Grunow's kitchen also offers a variety of options for anyone desiring a healthy lifestyle, including many tasty choices on their kids menu. The new outdoor seating area that shares a view of the garden gives a relaxing experience while you enjoy a refreshing drink or wait to be seated.
